Political Instability and Economic Growth

This paper investigates the relationship between political instability and per capita GDP growth in a sample of 113 countries for the period 1950-1982 We define "political instability" as the propensity of a government collapse, and we estimate a model in which political instability and economic growth are jointly determined

Considering Law and Macroeconomics

Law and Macroeconomics (LawMacro) be an important new turn in legal and economic thought, a casual interdisciplinary tryst on the margins of a hundred-year flood, or, paraphrasing one commentator, this generation's Freudian pushback against the venerable Law and Economics movement? 2
